Snow Update 3/1/2012 12:00 noon

;

Those of you that have been reading my snow updates for years know the drill. When the weather reports trend to a more severe storm, the likelihood of snow materializing is much higher.

This storm has just been upgraded. We are looking for 2" to 4" today, 1" to 2" overnight, and an additional 1" to 2" tomorrow.

We are preparing now. I'll keep you up to date on our activities as the storm develops.

Thank you,
