

Landscape Consultants & Contractors, Inc.

Landscape – Irrigation – Maintenance
Since 1984

Snow Update 3/10/2013 7:30 AM

Services were completed late last night as expected.

The wet snow froze on streets and sidewalks causing slippery conditions. We used ice melt products where indicated.

Temperatures will hit 32 by noon and pass 40 by mid-day so sidewalks should melt and dry.

However, snow piles may melt and refreeze causing hazardous conditions. please notify us if you need any ice control measures.

Thank you,
