## SNOW UPDATE

DATE: March 27, 2009

TIME: 2:00 PM

After a 24 hour shift, sidewalk crews took a break at 7:00AM this morning. After a few hours rest they are back on the routes doing final clean ups.

All ATV work has been ineffectual. The snow is too heavy. We will have to use shovels and skid steer tractors to do the work.

Tomorrow we will run a crew through every site to police for ice, clear any accumulated drifts, and move what snow piles need to be moved in preparation for next week's storms.

As always, our crews are on their routes and can respond very quickly to any dangerous conditions. Please report anything that may need attention.

Thank you,

*Wm Michael Farrell, MBA, MSIB, ISA, APLD*
