SNOW UPDATE

DATE: April 17, 2009

TIME: 7:30 AM

Good Morning:

I think we have all seen the reports. We are prepared for whatever happens with this storm.

You'll remember that I like to track the trend of the forecast. Overnight, the predictions are for a stronger storm with more snow.

In April, cold and elevation make all the difference. We will be watching carefully.

Thank you,

Wm Michael Farrell, MBA, MSIB, ISA, APLD
