SNOW UPDATE

DATE: December 4, 2008

TIME: 8:00 AM

All sites were check at 4:00 AM. While some had some accumulation, there was not sufficient snowfall to justify a removal.

This storm is moving from north to south. We expect to begin a removal mid-day today and have sites cleared for the afternoon rush hour.

If needed, we will perform an additional cleaning during the overnight hours.

Thank you,

Wm Michael Farrell, MBA, MSIB, ISA, APLD
