## SNOW UPDATE

DATE: December 14, 2008

TIME: 10:30 AM

Snow fall began at about 11:00 PM last night. By 3:30 AM this morning, there was enough accumulation to mobilize and begin clearing snow.

Snow amounts are higher in the north and west parts of town.

Flurries will continue off and on all day.

Sporadic light snow means sidewalks and driveways will become snow packed and possibly icy through the day.

We will be continuously clearing snow and providing ice control measures as conditions warrant. As always, please report any dangerous conditions immediately.

Snow is predicted to end by 3:00 PM this afternoon, but cold temperatures will remain.

The next storm is expected Monday afternoon into Tuesday morning.

Thank you,

*Wm Michael Farrell, MBA, MSIB, ISA, APLD*
