SNOW UPDATE

DATE: February 6, 2011

TIME: 5:00 PM

Crews began services last night at about 11:00 PM. At most sites, we removed 6” and then returned to remove another 6”.

Exhausted crews then took a break.

Snow is expected off and on until 8:00 PM. We will begin work again at that time to have everything clear for the morning rush.

Snow is expected to return Monday afternoon. Monday morning we will be making rounds clearing parking spaces and consolidating storage areas in preparation.

This storm is expected to continue through Tuesday with more bitter cold temperatures. Our site visits may be more frequent to prevent ice build up.

Please report any dangerous conditions anytime day or night: 303-638-8092

Thank you,

Wm. Michael Farrell, MBA, MSIB, ISA, APLD
